

ENVIRONMENTAL POLICY

T3 Security Ltd are a leading supplier of security services to a range of business sectors, including but not limited to licensed premises, entertainment venues, retail, construction, and special events.

Whilst the nature of the product is environmentally friendly, T3 Security Ltd can ensure a more marketable product by introducing sustainable working techniques and being aware of our environment impacts whilst providing our services.

Protection of the environment in which we live and operate is part of T3 Security's values and principles. We consider it to be sound business practice and believe that we can encourage awareness of environmentally friendly practices by taking such measures as outlined below and by getting our competitors and other businesses to do the same. Care for the environment is one of our key responsibilities and an important part of the way in which we do business.

In this policy statement we commit T3 Security Ltd to:

- Complying with all relevant environmental legislation, regulations, and approved codes of practice
- Protecting the environment by striving to prevent and minimise our contribution to pollution of land, air, and water
- Seeking to keep wastage to a minimum and maximise the efficient use of materials and resources by
- Ensuring toilet and bathroom facilities are fitted with low water use toilets and basins
- Encouraging employees to cut water usage by displaying signs about how to implement such techniques
- Managing and disposing of all waste in a responsible manner, such as
 - using the other side of scrap paper for notes
 - recycling paper where possible
 - recycling all waste packaging created by employees in the kitchens
- Providing training for our staff so that we all work in accordance with this policy and within an environmentally aware culture. Environmental training shall take place twice per annum
- Regularly communicating our environmental performance to our employees and other significant stakeholders in newsletters, posted messages and letters, and on our website
- Developing our management processes to ensure that environmental factors are considered during planning and implementation
- Monitoring and continuously improving our environmental performance
